Re: Beth and Ward Coffman and ProLift Crane

Hello,

My name is Bill Burke and I am a framing contractor. I have had my own framing company for 33 years.

It has been my great pleasure, that for more years than I can remember, to, first, use ProLift Crane for the services that they provide and, secondly, come to personally know Beth and Ward Coffman.

ProLift Crane is the standard in their industry. Their professionalism, skill and service are beyond reproach. They will get your job done correctly and, most importantly, safely. They lead the way.

I am also pleased to be able to call Beth and Ward Coffman, the owners of ProLift Crane, my friends. Not only are they delightful people to know but they are the most generous and honest people you will ever meet.

Thank You,

William M. Burke
President
