RE: Letter of Recommendation

Dear Beth & the Pro Lift Team,

Thank you so much for the support you have given the Burns School and our student these past two years. Your lifting expertise, equipment, and service has been impeccable. We could not have accomplished the Playhouse Builds, Tiny House Build, and Solar Decathlon RISE House move and competition without you and your team.

I am extremely grateful for your team's patience and wiliness to take each job and make it a teaching moment with my students. Very few CM program get to expose their student to a working crane job, complex moves, and crane safety. We have gotten to do this with you four time in two years now. It's a learning experience that all our students involved talk about and cherish. The real world experience you provide tops anything I could do in the classroom with them.

We look forward to working with you in the future as we plan more real world construction projects and training for our students. We would gladly recommend you to anyone in need of lifting services. Please have them contact me anytime at the address, email, or phone number below

Sincerely,

A handwritten signature in black ink on a light green background, appearing to read "Eric A. Holt".

Eric A. Holt, PhD.
