

# **Rocky Mountain Power Generation, Inc.**

March 21, 2018

To whom it may concern,

I am happy to recommend the high quality services of Pro Lift Crane. I have been working with Pro Lift Crane for the past four years. They are our #1 go to crane company, for setting generators as well as hauling equipment for us.

Pro Lift Crane is a valuable partner, they consistently exceed our expectations. They handle each job with a focus on safety first, operating efficiently, and consistently accommodate our demanding schedules. I can always count on them to help resolve the most challenging situations. They do an excellent job, always punctual, and offer the most competitive rates.

I strongly recommend Pro Lift Crane for your crane needs.

Sincerely,

Gayann Schneider
